“ Sheila and family,
I am sad to hear of Ed's passing but also know his journey was not an easy one. (thank you Sheila for your committed care).
Ed is one of the people who taught me many things that books don't contain as I cared for him in those early days of my care giving career.
One thing was his sense of humor...he seemed to have the grace to stay positive in his situation where he could have been the exact opposite.
Another thing was his care/concern for others. Ed could have left the world go by him but he would often ask about those in the community or those he knew in my personal world of acquaintances. In my experience of working with him he exemplified the word grace as he taught me how to do things for him and also as he lived within his limitations.
I will always hold fond memories of playing solitaire with him and of hours of working on stamps together.
With sympathy

“ So sorry to hear of Mr. Krause's passing. I was a student of his at Sayre High School back in 1973-74. We recently had a mini class reunion of the 1975 graduating class & reminisced about him & how much fun we had with him. He made Physics & Physical Science interesting, certainly not boring. I remember him doing one armed push ups, but for the life of me , I don't remember why! So sorry for your loss.

“ *Mr. Kraus was one of the kindness and most dedicated teachers that I ever had. I remember I couldn't grasp a physics concept that he was teaching, he presented it so many different ways till we all had it. That takes a great teacher! It was great seeing him a few years back and he still remembered me, called me by name. He was truly special and I 'm glad I had the opportunity to know him. My prayers to the family through your loss. Pat Orłowski Brown*
