“ *Barry knew mechanical gadgetry early-on in his adolescent years, as if he'd written the initial "How to" manual, himself. It didn't matter what it was, Barry knew how to fix it!*

Farewell to my Towanda '66 classmate and friend!

“ I was so sorry to read about Barry's passing. We graduated together and since our names both started with "G" sat in the same homerooms all through High School. My thoughts and Prayers are with you all. The Class of "66" will miss another one of our classmates.
