“ I absolutely loved going to your Mom's house as a child. She was always full of fun and what a smile and laugh she had. She taught me how to use her knitting machine and I spent a few days a week working along with her as she shared so much of her life. I have many memories with her and they always bring a smile. Thinking of you.

My daughter, granddaughter & I met her at a craft fair. She immediately wanted to teach my granddaughter to knit, lol. Afterwards, we both continued to go to her house weekly for lessons for a couple years. We enjoyed it so much! She also came to see my granddaughter in a couple plays. She was such a wonderful woman. She is someone I will always remember with fondness.
