“ My Mom most certainly was one of a kind and nothing meant more to her than her family! I have to say that she was a big part of what kept our family together at times. She survived a lot of losses in her 87 years from her dogs that she loved to sisters, brothers, my dad, and even a few of HER children and many others that she knew,(in that many years she knew a lot of people) and each time she endured it and had to keep going on. she also had many happy times in her 87 years of life with new additions to the family happening quit often and each one finding a special place in her heart. She stayed with us as long as she could but she was tired and ready to go and be with all those she loved and lost, it's there time with her now. she will always hold a special place in our hearts so now we hold on and cherish the memories. Love you mom and will think of you every day.
