“ Ron drove my kiddo for a year. He spoiled him rotten as my son always walked in the door with a candy bar (his favorite that Ron got specifically for him) and a can of soda! He was so kind and even offered for us to use his swimming pool over the summer. He blessed so many children while driving them. I am so sorry for the loss. My heart goes out to his wife and family. 💕

“ Just wanted you to know that those words God is there even when you are at the lowest and He is even working when we do not see it are truly true as they really touched my heart the day I read them. They were words I needed to see and read that day. Although Ron has passed on his life's testimony is still helping people. My sympathy to each and everyone of you and my prayers too. Keep looking up and keep following the Good Shepherd who is always with us and will never leave us.

“ It was always clear to see Ron's commitment and care for his family . His patience and humor was evident bringing Selena to her riding lessons many years ago. You are in our prayers .

“ Since I found out of Ronnie's death on last Tuesday, I have still been trying to process the fact he passed.

I started writing down notes about the 15 years that I knew him. Simply, he marched to the beat of his own drum, in white new balance sneakers nonetheless, I think that is the easiest way to put it. He would be willing to give the last dollar in his pocket to anybody that needed it. When I was in high school, he would always invite me over to come hang out, or when they would go to Wisconsin to visit family, I would watch the house and pets. When I would watch their house, he would let me use his beater car, and when I say beater car that thing was on its last leg, one car in particular Gracie the old Subaru was a legend. The exploder also has an honorable mention.. Even when I went to college he could text me to see how I was doing.

One of my favorite times was the annual 4th of July party at the pond. Him and I were known for harassing people and taking money all for the 50/50 raffle's that we would do ALL DAY LONG! (and we would raise thousands for the pond every year)

Every year Penny, would tell us she had to give out change to people because Ronnie and I would tell them, "We don't give change... we aren't a bank". Everybody at Haighs Pond, knew to bring money to the party because Ronnie and I would take it from them.

It would be nothing during a campfire, him and I thought it was getting low, stack up the wood and throw diesel fuel on it just to see the flames jump up. My family (Chip & Mary) and Twyla would be having a conversation, he would step out for 10 minutes to smoke a cigarette, come back and continue the same conversation 😭

For anybody that did not know... Cargill sold their pork plants. Ronnie would randomly tell everybody that, however they all were sold in 2015...

I'm going to miss you man - we were just taking the other day about selling 50/50 tickets this year and our plan of attack, but do not

fear... I will be there for the pond party - selling 50/50 tickets just like we used to do!

“ From meeting him at the trucking company through Nick, to your wedding, to cleaning the house and art classes, we've stayed close. It's a lonely world without his humor and wit.
